**PRESS RELEASE**  
**13 October 2015**

**ACIFC Welcomes Eight New Members**

The Association of Concrete Industrial Flooring Contractors (ACIFC) has strengthened its representation of the concrete industrial flooring industry by welcoming six new UK-based members and two new international members this year. Bringing together the leading contractors, material suppliers and service providers, ACIFC is committed to improving standards to provide clients with the most appropriate end product to suit their needs.

ACIFC's newest Contractor member, **Concrete Flooring Solutions**, has over 40 years' experience in the concrete industrial flooring industry and brings a wealth of knowledge to ACIFC. **BASF, Concrete Services and Supplies, Grace Construction Products, Monofloor, and Raised Floor Solutions** have all joined as Associate members. Involved in major concrete industrial flooring projects, they all deliver a high level of service to their clients.

The UK concrete industrial flooring industry has a global reputation for quality and standards and ACIFC International Membership, which was introduced in 2014, offers organisations involved in concrete industrial flooring from around the world direct access to the latest news and information about the UK industry. **Chengdu Yiheng Construction and Material Co Ltd** and **Shenyang Nester Floor Engineering Co. Ltd** have joined ACIFC in 2015, reinforcing its position as the leading trade association in the world for concrete industrial flooring.

ACIFC now has 30 members with its UK-based members benefiting from increased business opportunities, industry representation, and a wide range of business support. ACIFC members are at the forefront of innovation in design, materials and construction techniques and should be the first port of call for all concrete industrial flooring projects.

ACIFC Chairman Colin Shephard said:

*"ACIFC and its members are committed to raising standards in floor technology by developing key skills and sharing best practice. The continued growth of ACIFC demonstrates the value of representation and support we provide and membership is a benchmark of quality to both companies and clients alike."*
